A Note from the Foundation Executive Director

Jessie Wilcox, Executive Director

"The times they are a-changin'." The one constant in life is change, and here at Livingston HealthCare Foundation, we are grateful to be celebrating a remarkable milestone, **10 years on Alpenglow Lane.**

When I began my career at Livingston HealthCare in June of 2007, I worked in the "old hospital," managing the Food and Nutrition Services Department. The kitchen was tucked away in the basement with no natural light. At that time, there were whispers about building a new hospital. To me, it felt like a dream.

Fast forward just eight years, and that dream became reality in 2015. Together with architects, engineers, and a dedicated team of community leaders, we built what is now one of the most beautiful healthcare facilities in Montana, providing excellent and accessible healthcare. A cornerstone of that achievement was philanthropy. Through the Foundation's capital campaign, we raised **$10 million, the largest fundraising effort in Park County's history at the time.** It took a village, and it took some extraordinarily dedicated community members, to make it happen.

We didn't just build a new hospital; we built a future. Café Fresh opened as part of that vision, transforming the basement kitchen of the past into a vibrant gathering place, one that many call one of the best cafés in town. Concerns about accessibility were met with solutions like Park County's Windrider, offering free public transportation with daily stops at the new medical center.

Ten years later, our hospital has flourished. Thousands of patients have walked through its doors, countless families have received compassionate care, and our community has grown stronger and healthier. Philanthropy made this possible. Every gift, large or small, has been an investment in our community's well-being.

As we look ahead, we know change will continue. Our medical center is thriving, but we are also outgrowing our space, and critical renovations will be needed to carry us into the next decade. Just as philanthropy was the foundation of our past, it will be the key to our future.

Today, we celebrate not only 10 years on Alpenglow Lane, but also the generosity, vision, and resilience of this community. Thank you for believing in Livingston HealthCare and for walking with us every step of the way.

The mission of the Livingston HealthCare Foundation is to advance the health and wellness of our community by financially supporting the programs, services, and capital equipment needs of Livingston HealthCare.

Foundation Financials: *Investing in Local, Patient-Centered Care*

FY 2025: July 2024 - June 2025

REVENUE	
Contributions:	$811,728.00
Investment Revenue:	$879,104.00
Pledges	$23,814.00
TOTAL EXPENSES	$339,238.00
SUPPORT TO LHC:	$833,613.25
PATIENT ASSISTANCE:	$7,677.00
ENDOWMENT BALANCES	
Permanent:	$854,297.00
Quasi-Endowment:	$1,493,470.00
Hospice:	$892,841.00

Gifts to Livingston HealthCare from Foundation Donors

*Left to Right: Theresa Jannuzzi, RN, Michaela Goris, RN, Julie Albina, Director of Surgical Services, Josey Brown, RN, and Amanda Munn, Tech, with the new Endoscopy system, supported with **$261,604** of donor funds.*

As we reflect on the accomplishments of Fiscal Year 2025, we are filled with gratitude for your unwavering support.

Thanks to the incredible generosity of our donors, the Livingston HealthCare Foundation transferred **$833,613.25** to Livingston HealthCare, directly impacting patient care and enhancing our facilities in an age where community support is essential to keep excellent healthcare close to home.

Investing in Surgical Services

Livingston HealthCare offers a full range of surgical services, including orthopedic, OB/GYN, and general surgery, delivered through a collaborative, team-based approach to provide expert, minimally invasive care.

Apryl Lee, Ultrasound Tech, models the new stretcher for Interventional Radiology, making patients more comfortable by reducing the need for multiple transfers and increasing procedure efficiency.

(in FY 2025)

24,184
Radiology Exams

1,458
Surgical Cases

Community Support. Community Impact.

Advanced Diagnostic Testing

Imaging Services at Livingston HealthCare provide advanced diagnostic testing beyond conventional x-rays, including mammography, CT, MRI, ultrasound, nuclear medicine, and bone density scans. LHC also offers select outpatient interventional procedures.

Comprehensive Care

Livingston HealthCare's Rural Health Clinic provides comprehensive primary and preventive care for all stages of life. Our team of physicians, nurse practitioners, physician assistants, midwives, and psychologists had 30,865 patient visits last fiscal year.

Gina Woody, Radiology Tech, shows the new hot/cold packs for patients who've had a mammogram biopsy.

Dr. Yvette Gross stands with the new point-of-care ultrasound system in the Clinic.

Acquiring Essential Medical Equipment:

- Imaging Stretcher: $11,189
- Ultrasound Probe: $21,470
- Omni Cell Medication Cabinet: $82,902
- Endoscopy System: $261,604
- Clinic Point of Care Ultrasound: $43,471
- Laboratory Centrifuge: $11,935
- Hot/Cold Packs (Mammogram Biopsy): $618
- Vehicle replacement for Home Health and Hospice visits: $14,463

Engaging the Community:

Launch of the Community Perception Project: $42,000

Supporting Patients Facing Financial Hardships:

Patient Assistance Funds: $7,677

Community Support. Community Impact.

Laboratory & Pathology Services

Our federally-certified laboratory provides screening, diagnostic, and monitoring tests for inpatients, outpatients, and referred samples, with skilled phlebotomists and clinical laboratory scientists. Pathology services are offered in partnership with Billings Clinic.

Community Trauma Facility

Livingston HealthCare is a Level 4 Community Trauma Facility, providing 24/7 emergency care with board-certified physicians, nurses, and full access to operating rooms, lab, and imaging services. Trauma designation by the State of Montana ensures we meet rigorous standards in equipment, training, and care.

Mariah Flook, Clinical Lab Scientist, works with a new lab centrifuge.

Greg Dekker, Emergency Department Director, accesses the new medication cabinet in the ED.

Investing in Sterile Processing within Surgical Services

The completion of the Sterile Processing Department renovation in April 2025, supported by a **$288,340** contribution from the Foundation, has significantly expanded our sterilization capacity and optimized workflow, reinforcing our commitment to safe and efficient patient care.

Enhancing the Healing Environment:

- Landscaping Improvements: $14,198.10
- *Breaking Free* sculpture donated by artist Jim Dolan

Your Partner in Lifelong Wellness: Rooted In Care. Growing with You.

Livingston HealthCare is a nonprofit, 25-bed Critical Access Hospital with a Level 4 Community Trauma facility, multi-specialty provider clinic as well as rehabilitation and home-based services:

Behavioral Health

*Urgent*Care
Shields Valley Clinic
Gardiner Clinic

As nonprofits, Livingston HealthCare and the Foundation rely on the generosity of our community. Philanthropic support provides vital resources, such as advanced medical technology and essential equipment that empower our care teams and enhance the patient experience. Every gift plays a meaningful role in improving the health and well-being of those we serve.

"We just have such confidence in the facility that every provider that we're going to meet with is going to be knowledgeable, competent, professional, but also real with us and caring."

- Grateful Patients, Molly and Brogan Ballard with baby Ida

Program Highlights: Serving the Community.

Livingston HealthCare at Livingston Public Schools *(formerly the Ranger Clinic):*

Stewarding a Vital Community Resource

What started as a shared locker room space in Park High School, has evolved into dedicated space within the high school which serves grades 3 through 12, in addition to Livingston School District employees. The 2020 school clinic renovation was made possible through a generous grant from AMB West Philanthropies, combined with widespread community contributions raised during the Livingston HealthCare Foundation's 2019 Pediatric and Adolescent Mental Health Appeal.

This strategic model of integrated care is a collaboration between a Nurse Practitioner and a Clinical Psychologist to provide comprehensive physical and mental health services, ensuring early intervention and ongoing support for children and youth. Donors play a critical role in the long-term sustainability of LHC's school clinic.

Our deepest gratitude to the continuing partnership of **The Dovana Foundation** and to the **Joyful Noise Charitable Foundation** for their new support of both the school clinic and the new scholarship program for Park High School seniors pursuing careers in the medical field.

Christopher Spromberg, Clinical Psychologist, provides mental health support on Mondays and Thursdays at Park High.

Lindsay Comte, Family Nurse Practitioner, serves the school clinic Monday through Wednesdays.

Did You Know?

Subsidized Health Services

Livingston HealthCare provided **$5,705,265** in essential services that were not fully reimbursed, such as behavioral health and psychiatric care, pediatric specialty care, sexual assault exams, palliative and supportive care, diabetes education, telemedicine and rural outreach clinics.

Patient Financial Assistance

Last year, patients received **$436,000** in financial assistance.

Community Health Improvement

$128,296 was invested in free community education and injury prevention programs, LiveWell49 support and partnerships to address community-wide health initiatives such as substance use disorders and crisis response.

Health Professions Education

Livingston HealthCare provided free training valued at **$105,039** to dozens of health profession students. Post-graduate education included Psychiatric Residency, Pharmacy Residency, Internal Medicine Residency, Montana Family Medicine Residency and Rural Critical Care Fellowship. These programs address the daunting shortage of primary care and psychiatric physicians in rural areas and among under-served populations.

By the Numbers: *Patient Visits, July 2024-June 2025*

Clinic: 30,865
Emergency Room: 7,303
Urgent*Care:* 9,868
Surgical Cases: 1,458
Shields Valley Clinic: 809
School Clinic: 247
Infusion Visits: 3,020
Hospital Inpatients: 880
Hospital Observation Patients: 790
Hospital Swing Beds (transferred from acute care for recovery): 81
Radiology Exams: 24,184

Why We Give: The Power of Healing

"Sal and I have been honored to continue supporting the Livingston HealthCare Foundation. Our son Shane was born at Livingston HealthCare, my mother served as a nurse at the Livingston Hospital, and Sal had a lifelong passion for our community. It has been meaningful to us to support an organization we love that provides exceptional care to the people of Park County."
— Carol and Sal Lalani
In memory of Sal Lalani (1945-2025)

"We love our community and value having exceptional healthcare available to everyone. Having personally received incredible care at Livingston HealthCare, we are grateful for the opportunity to support their efforts and help ensure outstanding care for all."
— Seabring and Colin Davis

"We know how important it is to have timely access to healthcare close to home. We are grateful for the care that Livingston HealthCare provides to our community and are honored to work with the Foundation in supporting access to high-quality care in Park County."
— Glenda and Russell Gordy

Every gift is a lifeline—strengthening care, inspiring

Celebrating 10 years on Alpenglow Lane

October 2025 marks the 10 year anniversary of the official opening of the medical center at 320 Alpenglow Lane. "It takes a village" is more than a cliche; it's a testament to the power of a community to come together.

As the Foundation Board Chair at the time, Ruth Weissman, noted at the campaign's celebration: *"[this] is about celebrating you and what we have accomplished together as a community. Truly, you made this possible and we are forever grateful. It is said that a journey of a thousand miles starts with a singe step. To say that our journey toward raising 10 million dollars started with a single gift would be the understatement of the day—our journey started with Dr. Debbie Erdman taking a giant leap by making a major lead gift that served to inspire others to "give more than they have ever given to any other cause in Montana." Our journey's success was also aided by David Stanley, whose unrelenting optimism and "never-take-no-for-an answer" attitude made him the perfect coach for our efforts. But, in the end, no matter how important, indispensable, in fact, their contributions, we would not be here today was it not for all of you. Our great Livingston community mobilized in support of Livingston HealthCare and its possibilities: to provide excellent medical care and health education services right here where we live."*

The New Hospital Campaign Cabinet co-chairs, Debbie Erdman, MD, and David Stanley celebrated the successful completion of the largest fundraising effort in Park County to date, in March 2017.
In memory of Debbie Erdman (1950-2022)

Sustaining Rural Health Care

Livingston HealthCare continues to face the unique challenges of a rural healthcare system, including fluctuating patient volumes, geographic isolation, economic uncertainty, labor shortages and an aging population.

The FY 2026 budget goal is a 3% profit margin to reinvest back into operations, equipment and infrastructure. For perspective, the Montana Health Care Foundation states that almost half of rural Montana hospitals are operating at a loss.

Livingston HealthCare Foundation is grateful to our generous philanthropic community for their continued partnership to ensure that every resident and every visitor has access to excellent care, here at home.

hope, and transforming the health of our community.

Sheri Queen, Pharmacy Tech, is a recent recipient of the BEE award which recognizes staff for their compassion, dedication and excellent support of patients and their team.

"This renovation will transform the way we serve patients, giving our team the safe, efficient space we need to prepare life-saving medications right here in Livingston. The pharmacy is the backbone of our hospital, supporting every department from surgery to pediatrics to oncology. This renovation will give our team the safe, modern space needed to provide the best care for every patient."

- Brian Galbreth, PharmD, Pharmacy Manager and Ancillary Services Director

Pharmacy Renovation Campaign

The Need

The pharmacy is the heart of Livingston HealthCare.

Every patient, from those receiving infusion therapies to those undergoing surgery, in the emergency department, or in inpatient care, depends on it.

Our pharmacy prepares infusion medications for the entire hospital, stores and distributes pharmaceuticals to every department, and ensures that medications are available, safe, and effective for every patient who enters our facility.

As medicine evolves and regulatory standards advance, our pharmacy must evolve as well. To continue providing the highest level of safety for patients and staff, and to remain in full alignment with modern compounding and handling standards, we must renovate and modernize this critical space.

Project Highlights

This renovation will transform current spaces into a state-of-the-art, compliant and highly functional pharmacy:

Expanded Footprint for Growing Needs

- Increase the footprint of the pharmacy, creating the space necessary to support enhanced workflows, new technologies, and future growth.

Upgraded Compounding Services

- Align with updated regulatory requirements related to compounding standards for sterile and hazardous medication preparations. Replace the Hazardous Drug Compounding Hood.
- Improve workflow by enhancing safety, efficiency, and separation of hazardous and non-hazardous workflows.

Modernized Medication Distribution Hub

- Enlarge the Distribution and Operations area for increased efficiency.
- Update and expand medication storage systems to ensure greater inventory control and accessibility.
- Upgrade technician and pharmacist work areas to improve workflow coordination.

On-Site Leadership Support

- Relocate the Department Manager's office within the pharmacy to foster real-time team support and operational oversight.

Your Investment Ensures That Livingston HealthCare Can:

Continue Offering Reliable Infusion Services: Patients can receive treatment locally rather than traveling hours away.

Maintain Patient Safety: Expanded sterile and hazardous compounding areas ensure the safest preparation of medications.

Enhance Staff Protection: Upgraded ventilation, workflow, and design support the safe handling and storage of hazardous drugs such as chemotherapy.

Stay Ahead of Regulatory Standards: The renovation ensures compliance with new regulatory requirements.

Support the Whole Hospital: Every department relies on the pharmacy, from infusion and surgery to pediatrics and emergency care.

Boost Efficiency: Improved workflows allow medications to be prepared and delivered faster, supporting timely care.

Join Us:

When you support the Pharmacy Renovation, you're doing more than funding bricks and mortar, you're protecting staff, ensuring patient safety, and keeping essential care close to home.

Together, we can build the pharmacy that our community needs and deserves.

$25,000	Helps outfit pharmacy compounding room with state-of-the-art ventilation equipment
$10,000	Supports negative pressure renovations, ensuring safe storage of hazardous drugs
$5,000	Funds upgrades to protect staff during unpacking of hazardous drugs
$1,000	Provides essential storage space for essential pharmacy supplies
$500	Contributes to ongoing staff training and safety improvements

Any amount moves us closer to a stronger pharmacy.

The Impact: A Stronger Medical Center

Cindy's Journey: *Care Close to Home*

When Cindy was first diagnosed with breast cancer in 2010, she began a long and difficult journey that later included surgery, recurrence, and ongoing treatment for metastatic cancer. Today, she continues to receive infusion therapy every three weeks at Livingston HealthCare.

Living in White Sulphur Springs, Cindy could choose larger medical centers in Billings or Bozeman, but she drives a two-hour round trip to Livingston because of the exceptional care she receives. To Cindy, the infusion staff are more than caregivers; they are family. Their compassion, attentiveness, and skill have been essential to her resilience.

Behind every one of Cindy's treatments is a medication prepared safely and precisely by our pharmacy team. Her story serves as a reminder of why this renovation is important: to ensure that patients like Cindy can continue to receive world-class care close to home, surrounded by people who know and care for them.

"I've just been treated so well here. Everyone is so caring, from the ladies that check you in to the dietary staff to the folks that clean my room...it's like family over here." *- Cindy Mesecher*

Thank You For Your Generous Support

You have made a positive difference by supporting local, patient-centered care through the Livingston HealthCare Foundation. ***Thank you for keeping exceptional care close to home!***

Foundation Board Member Spotlight: *Joey Lane, Board Chair*

I am proud to serve as Chair of the Livingston HealthCare Foundation, and I am deeply grateful to every person who has donated, volunteered, shared their story, or offered a testimonial. Your generosity is what makes it possible for our Foundation to financially support the programs, services, and capital equipment needs of Livingston HealthCare.

My family has personally experienced the legacy of this hospital. My granddaughter is the third generation of Lanes to be born here. My daughter was born at Livingston Memorial under the care of Dr. Debbie Erdman, and now my granddaughter has been welcomed into the world in our beautiful Shane G. Lalani Family Birth Center. We have come a long way since Livingston Memorial opened its doors on South 13th Street more than 70 years ago. Today, we are proud to celebrate ten years in our facility on Alpenglow Lane, a facility I was honored to help bring to life as part of the capital campaign. This new space allowed Livingston HealthCare to expand services and develop programming to meet the growing needs of our community.

Now, we are preparing to grow again. Our next priority is the expansion of our pharmacy, a department that supports every corner of our hospital. With the rising demand for infusion services, we must expand our capacity to safely compound medications, particularly for chemotherapy patients. This growth is essential to ensure that our patients have timely access to the treatments they need, close to home.

As I look to the future, I am grateful to serve in this role and to support the continued growth and change that will keep health care in our community strong. At Livingston HealthCare, we know that neighbors helping neighbors is what makes our mission possible.

Joey Lane
