

ANNUAL REPORT 2014-2016

Livingston HealthCare Foundation

A MESSAGE FROM THE CO-CHAIRS OF THE NEW HOSPITAL CAMPAIGN

This is a report on the activities of Livingston Healthcare Foundation for the three fiscal years ended June 30, 2014, 2015, and 2016, and particularly on the principal activity of the Foundation during that time – the New Hospital Campaign to raise the $10 million needed to complete funding for our new medical center on Alpenglow Lane in Livingston. This campaign was the largest fundraising effort in Park County history and raised more than $9.5 million of our $10 million financial goal during these three years. The campaign was completed in October, 2016, surpassing the $10 million goal. We also list in this report our very generous donors for fiscal years 2014, 2015 and 2016.

Our Foundation is an independent 501(c)(3) not-for-profit organization created to support the mission and activities of Livingston HealthCare. All operating expenses of the Foundation are funded by Livingston HealthCare. Therefore, 100% of every dollar given to the Foundation by donors is spent to fund those Livingston HealthCare needs intended by the donor.

Fiscal years 2014, 2015, and 2016 were pivotal for Livingston HealthCare, the Livingston HealthCare Foundation, and our healthcare community at large. Together, Livingston HealthCare and the Foundation planned, built, equipped, funded, and ultimately moved into a new 125,000 square-foot medical center that is physically, aesthetically, and medically one of the finest hospitals and medical provider clinics of its size in the country.

The cost of the new medical center and its new equipment was $45.5 million. Of this total cost, $500,000 was paid for by Livingston HealthCare cash reserves, $36 million was provided by direct or guaranteed loans by the Unites States Department of Agriculture (USDA), and $10 million (including $1 million of much needed working capital) was provided by local donors through our New Hospital Campaign. The USDA loan—the largest it has ever made in Montana—was contingent on a successful fundraising campaign.

In recognition of the restorative powers of the arts and the important role of the arts in our community, the campaign also included efforts to acquire paintings, sculptures, photographs and other works of art from local artists. With the help of our expert art committee, we were able to purchase or receive as gifts a treasure trove of art works, and we can display on extended loan (from the Museum of the Rockies), eleven stunning paintings by Russell Chatham. Our art collection is a daily inspiration to our patients, employees, and visitors.

Our Foundation board was stunned by the generosity of our community and by its obvious commitment to outstanding local health care. As past Chair of the Livingston HealthCare Foundation and Co-Chairs of the Foundation's New Hospital Campaign, we want to express our profound gratitude and appreciation for your philanthropic support of our efforts to help provide this wonderful new medical center for all of us. Thanks to you, our terrific 330 colleagues at Livingston HealthCare stand ready to help all of us in times of need.

David Stanley

COMMUNITY PHILANTHROPY
YOU MADE THIS POSSIBLE!

In fiscal years 2014–2016, our community contributed more than $9.5 million of the $10 million New Hospital Campaign financial goal and, in late 2015, our new medical center was open for business.

Undoubtedly, this wonderful new medical facility would not have become a reality without our supportive and devoted community. Through the power of philanthropy, full-time and part-time residents, businesses, and foundations committed enough financial support that we were able to complete funding for construction and equipping the new facility. Thank you for your continued commitment to high quality healthcare for our families, neighbors, and visitors.

A FAMILY LEGACY

In October of 2015, when LHC patients and other Park County residents entered the new Livingston HealthCare medical center, their reactions were priceless: amazement, disbelief, wonder. Their first impressions of the new facility came by way of the spectacular Glynna W. Freeman Atrium. The beautiful Montana stone columns and tile floors, stunning grand staircase, and lovely Chatham paintings are compliments of the generosity of the Lee Freeman family.

Glynna Freeman was raised in the oil fields of Oklahoma, Texas, and Wyoming, as her father was a petroleum engineer. She received a scholarship to attend Smith College in Massachusetts, where she met her future husband, Lee. Once married, she attended law school, became a highly-respected Chicago attorney, and practiced law alongside her husband. The couple purchased a home in Montana in 1979 in order to start ranching in addition to their legal work. "She practiced law, but she always had a desire to be a cattle rancher," Lee Freeman says. "We spent most of our time practicing law, working on the ranch, and following our children in their various theatrical endeavors."

The Freemans' three children, Crispin, Clark, and Cassidy, caught the acting bug and are enjoying successful careers in Hollywood. Crispin Freeman is a prominent voice actor featured in many hit video games while Clark and Cassidy Freeman have performed on television and in major motion pictures.

Glynna was a highly regarded and dynamic community member, serving on numerous boards including Community Health Partners, Livingston HealthCare, and the Livingston Depot Center. Daughter Cassidy Freeman recalls Glynna's affinity for the Park County community. "My mother grew up in smaller communities where you knew your neighbor. She loved Livingston for its small and close community. To her, everyone was family."

With Glynna's passing in 2012, it was important for her family to continue her legacy through philanthropy by contributing to the New Hospital Campaign in ways that commemorated Glynna's personality and convictions.

"She also loved being able to see how efforts to better a community actually made life for people she personally knew a little easier," Cassidy says. "My mother believed so strongly that every person deserves to be taken care of. One of the biggest struggles of this country is our ability to make each other feel taken care of. Healthcare, or a lack thereof, plays a big part in this. I think every community, no matter how small or remote, deserves the same kind of medical attention and technology as a big city."

The Freemans are proud to support Livingston HealthCare and are amazed by the new medical center. "It's warm and inviting," says Lee. "The equipment and building is very impressive. It has made a terrific impact on the community, as it's a better hospital than you can find in a long radius. I hear nothing but good things about the ability to get care here without traveling."

> *My mother believed so strongly that every person deserves to be taken care of.*
>
> —CASSIDY FREEMAN
> Lee and Glynna Freeman's Daughter

As more and more patients and visitors enter the Glynna W. Freeman Atrium, her legacy touches each individual. "I like to think," says Cassidy, "that her spirit is there smiling and hoping all the patients that pass through feel taken care of and safe."

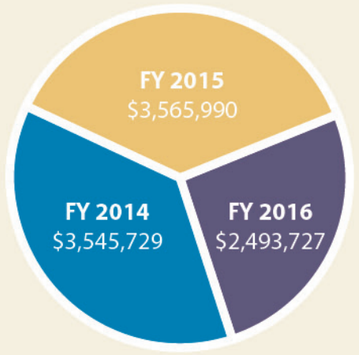

The Freeman family *(from left to right)*:
Lee, Cassidy, Clark, Nathan (Clark's son), and Crispin.

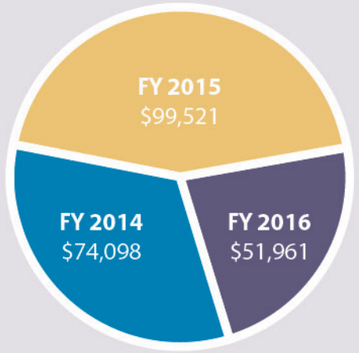

LIVINGSTON HEALTHCARE FOUNDATION FINANCIAL PERFORMANCE: FISCAL YEARS 2014-16

Fiscal years 2014, 2015 and 2016 were pivotal years for Livingston HealthCare Foundation, as **we raised a total of $9,831,026.35 in these three years.** These contributions were donated to the following Foundation programs:

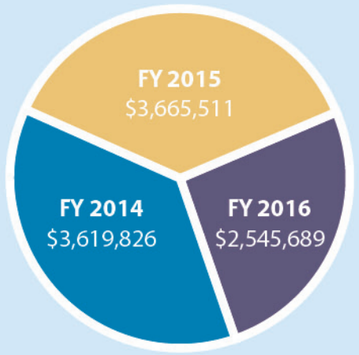

NEW HOSPITAL CAMPAIGN GIFTS TOTAL: $9,605,446

ALL OTHER CONTRIBUTIONS TOTAL: $225,580

Includes grants, Tree of Life, Hospice and others

TOTAL OF ALL GIFTS TOTAL: $9,831,026

Livingston HealthCare's new medical center includes a pediatric rehabilitation room that provides the equipment and space to help children reach their full potential.

AN EMPLOYEE DONOR STORY: *RHONDA*

". . . we needed an upgrade so that we wouldn't lose our community to Bozeman or Billings . . ."

—RHONDA PETERSON
Livingston HealthCare Respiratory Therapist and Employee Donor

Rhonda Peterson had just left Yellowstone National Park, headed toward I-90, on a relocation road trip from Kalispell to her new home in Lander, Wyoming. As she drove parallel to the Yellowstone River—past beautiful cattle ranches and towering mountains—Peterson knew that one day she would call this home.

Nine years later, Peterson made that dream a reality and purchased a home in Livingston. Later, Peterson was hired at the Livingston HealthCare Sleep Center, working with Dr. Pascual as a respiratory therapist. She became a donor to the New Hospital Campaign by joining the Employee Hour Club during the "family phase" of the campaign in 2014.

"It was great that as employees we were offered the opportunity to participate," said Peterson, "because we are not wealthy like a lot of the other donors who contributed. The way we were allowed to donate through payroll deductions meant that we could still be a part of the donor team and really feel like we contributed."

During the transition to the new medical center and a new sleep center format, work for Peterson became scarce. She joined a medical travel company and signed a two-year contract to be placed in Sioux City, Iowa. A year into her contract, a full-time respiratory therapist position opened up at Livingston HealthCare and she jumped at the chance.

Peterson is elated with the new facility. "It is a great addition to the community—everyone that has worked on it can be very proud. Since I have been back, I have only heard positive things," she says. "It's like part art museum, part ski lodge!"

Peterson believes the project was a vital accomplishment and has since re-committed to her "Hour Club" employee campaign pledge.

"In order for this community to survive," Peterson said, "we needed an upgrade so that we wouldn't lose our community to Bozeman or Billings—so our patients wouldn't have to travel for quality care."

FOUNDATION PROGRAMS

TRAILS Rx LIVINGSTON MONTANA

In June of 2014, Livingston HealthCare and the City of Livingston kicked off a new wellness initiative called Livingston Trails Rx. The project would increase pedestrian traffic on Livingston's trails system as well as increase the physical fitness level of our community. In 2014 and 2015, the Foundation acquired $30,052 in grant funding from the Montana Fish, Wildlife, and Parks Recreational Trails Program for Livingston Trails Rx. These funds were used for the construction of a new linkage trail from the new medical center to Myers' River View Trailhead and materials to build a pedestrian bridge along the trail. This exciting new trail joins our new healthcare facility to the natural world around us and provides an active and unique opportunity to our patients, employees, residents, and visitors.

TREE *of* LIFE

Our annual Tree of Life event allows for donors to honor or memorialize family members or friends while raising funds for healthcare needs in the community. Last December, the annual event raised over $11,000 to help fund the construction of a Hospice garden at the new medical center. The garden is located directly behind Café Fresh and features annual and perennial flowers, benches for respite, and scenic vistas. The garden provides a quiet space for patients, families, and employees to reflect and find peace. The Tree of Life is an excellent way for our community to remember loved ones—both now and in the future.

The Foundation financially supports a free mammogram program for women in Park County and for others who receive medical care at Livingston HealthCare. Specifically, uninsured or underinsured women aged 40 to 64 are provided, free of charge, screening and diagnostic mammograms and breast ultrasounds when needed. Since this program's inception, the Foundation has provided over 350 free mammograms. Demand for a wide range of diagnostic imaging services has increased substantially at our new medical center. The Foundation is launching a new fundraising effort to further expand our capability to offer state-of-the art mammography and other imaging procedures.

THANK YOU

We could not succeed without the support of donors like you.
